GENERAL INFORMATION

PERMANENTMARK®, THE PERMANENT SOLUTION FOR VISIBLE SECURITY MARKS

PERMANENTMARK®, is highly recommended by the police !!

Permanentmark® is the new way of protecting your valuables. Once a Permanentmark® has been applied to an article, it will be marked forever.
And a permanent mark means **maximum** efficacy.

SIMPLICITY ITSELF (The instructions for use are not really necessary.)

Permanentmark® is easy to use by everyone and is moreover completely safe.
It works like this: Templates with our own letters and/or figures are produced by Permanentmark® Security Systems. The templates come with the required marking-paste. After the template has been fixed to the article, the marking-paste is spread over it with a brush. The paste is allowed to pass through the punched holes and bite into the material and after 10 seconds the template can be removed. The result is that your property has been marked professionally in an unannoying, but permanent way.

MAXIMUM ECONOMY

Don't hesitate to consider for a moment how many tens of thousands of euros/dollars you have invested in computers, peripherals, communication equipment, office furniture etc. etc....

Then consider the following: it costs only very little money per article to mark your properties permanently with the Permanentmark® Security System.

A higher yield is NOT conceivable.

A DOUBLE WARNING FOR THIEVES AND RECEIVERS

To bring the message home to someone having evil intentions, you will also be supplied with durable transparent vinyl warning-stickers. These enhance the deterrent effect by drawing attention to the fact that your properties have been permanently marked and protected by Permanentmark®.

See also the '2-step warning-system' hereafter in the folder.

PROFESSIONAL MARKING – TIME AND AGAIN

The application of Permanentmark® is a piece of cake. The instructions for use that are included are not really necessary.

The permanent marks are only 5.5 mm high.

PERMANENTMARK® FOR A BALANCED PREVENTION POLICY

Below you see a random demonstration code.

Just remove the warning sticker. Next try to remove the code from the material. You will find out that the code is really **permanent** . It might be that you manage to remove the code by means of a grinding-machine. But then the article is so seriously damaged that it is absolutely uninteresting for thieves and receivers !

**WITH PERMANENTMARK®
You dot your i's and cross your t's**

**USE PERMANENTMARK®
FOR THE FINAL TOUCH**

ATTENTION

You will understand that you can not test the Permanentmark® result with this print-version.

But, believe us the result is PERMANENT.

If however you rather test it yourself, just let u know by E-mail.

We will then send you a test example.

You can also ask us to send you a complete Company information folder. This folder is free and non committal. The contents is the same as this download version but enclosed you will then find also an example to test with.

THE 2-STEP WARNING SYSTEM

STEP 1

Apply the identification of your choice to the properties you want to mark permanently, using your Permanentmark® set.

Then place the transparent Permanentmark® warning-sticker over the code.

EXAMPLE:

STEP 2

Over 95 % of all thefts involve specific articles. The thieves know what they want to steal. By displaying our big warning-stickers for windows you will let them know that there is nothing they fancy in your premises. These stickers are to be put up in the main entrances of your offices and shops.

EXAMPLE:

**THESE 2 STEPS ARE EXPLICITLY ADVISED BY THE MAGISTRATURE/POLICE.
THIS SYSTEM ENABLES YOU TO PREVENT NOT ONLY THEFT,
BUT ALSO BURGLARY !**

PRICE LIST FOR PROFIT AND NON-PROFIT ORGANISATIONS

[Valid as from January 1, 2005]

{1} EVERY PERMANENTMARK® SET COMPRISES:

- a) A Permanentmark® template provided with the code of your choice,
- b) Permanentmark® marking-paste + brush,
- c) Instructions for use,
- d) A special “alcohol-prep pad” to dry the marks instantly, and
- e) A durable transparent vinyl Permanentmark® warning-sticker printed in two colours to stick over the codes etched in.

ANSWERS TO FREQUENTLY ASKED QUESTIONS

QUESTION 1: Does the Permanentmark® paste for plastics work on all kinds of materials ?

Answer: The Permanentmark® paste works on virtually all types of plastic.

The paste also works on wood, leather and painted/enamelled metals.

The marking-paste does not work on bright metals or on glass. For bright metals we have an electrochemical etching-system. For glass we have a special glass-etching-paste.

QUESTION 2: On the top line we can use 17 characters at a maximum. Can we also use 17 characters on the bottom line?

Answer: Yes, you can. There are NO additional charges.

QUESTION 3: Can more than 17 characters be used on one line ?

Answer: Yes, it is possible, but first consult us.

QUESTION 4: Must all templates bear the same characters ?

Answer: No, each template may be different. There are NO additional charges. For instance, you may provide all templates with consecutive numbers.

Example: ERICSSON 0001 ERICSSON 1499
 SE221 83 LUND SE221 83 LUND

This is just an example. Any conceivable code is possible !

QUESTION 5: A Permanentmark® transparent warning-sticker is fixed over the etched code. Is it also possible to supply warning-stickers printed with our own company logo in our own colours ?

Answer: Yes, it is, but it will entail extra costs. If you so desire, we will do all to supply you with these logo warning-stickers at cost price ! Just get in touch with us. Below you see an example of a so-called logo warning-sticker.

NOTE: If there are still any questions, please, give us a ring and ask for Mr. John M.H. Conemans.

You can also send a fax (+31 43 3647748) or an E-mail (info@permanentmark.nl)

FAXORDERFORM

We herewith order (specify number, please) Permanentmark® sets, for the price stated in the “Price list for Profit and Non-Profit Organisations”.

Following the advice of the police and your company, we wish a code of 2 lines.

On line 1, the name of our company.

On line 2, the zip-code+placename, preceded by our country reference.

Additional notes:

- 1) On line 1, state the name of your company or organisation.
- 2) On line 2, state the zip-code+placename. **We take care of the CORRECT Country reference.**
- 3) Line 1 and line 2 will be centered below each other.
- 4) State one letter or figure or spacing in each square. (A spacing counts as a character.)
- 5) Use letters or figures only.

WE WANT TO HAVE THE FOLLOWING CODE IN OUR TEMPLATES:

<input type="checkbox"/>																			
XX	<input type="checkbox"/>																		

“XX” will automatically be replaced by the reference of **your** country by our company.

Complete the following (please print):

Name of company:.....
Contact person:.....
Business address: Zip-code:.....Placename:.....
Invoice address: Zip-code:.....Placename:.....
Country:.....VAT-number:.....
Telephone:.....Telefax:.....
E-mail:.....

Date:..... Signature:.....

Please tick where appropriate:

- We prefer another code. Give us a call.
- We still have some questions. Give us a call.
